Re: Mystic Lake Project 2301 Integrated Licensing Process: Filing of Study Reports

Dear Secretary Salas:

PPL Montana, LLC hereby submits the following three study reports in connection with its anticipated application for a new license for the Mystic Lake Project, P-2301, through the integrated licensing process:

- Supplemental Report on Study 6: Hydrological Characterization of the West Rosebud Creek Bypass Reach between Mystic Lake Dam and Powerhouse;
- Final Report on Study 10: Shoreline Erosion Inventory at Mystic Lake;
- Supplemental Report on Study 12: Flow Restoration Action Plan for Flowline or Penstock Shutoff (two volumes).

The first two reports and Volume I of the third report are being filed electronically. Volume II of the third report, Supplemental Report on Study 12, constitutes Critical Energy Infrastructure Information (CEII). The original and two copies of Volume II are being filed in hard copy under cover of a hard copy of this letter.

PPL Montana will send an email to all stakeholders listed on the Mystic Lake relicensing Project Contact List with directions to access the documents contained in public portions of this filing on the project relicensing website at <http://www.mysticlakeproject.com>. Persons wishing to request CEII may consult the Commission's website, <http://www.ferc.gov/help/how-to/file-ceii.asp>.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. H. Jourdonnais", is written over a faint, larger version of the same signature.

Jon Jourdonnais,
Director Hydro Licensing and Compliance
